TASK 02:

PROMPTING FOR CREATIVITY

SIMPLE PROMPT

Give 3 startup ideas for college
Students in 10-20 lines

OUTPUT

3 Startup Ideas for College Students 🚀

1. Campus Delivery Service 📦

- Deliver food, stationery, books, and other essentials to students on campus.
- Earn money by charging a small delivery fee.
- Start with a WhatsApp group and a small budget.

2. Student Skill-Sharing Platform 💻

- Create a platform where students teach skills like coding, graphic design, and spoken English.
- Students can learn from one another at affordable prices.
- Earn money through class fees or subscriptions.

3. Eco-Friendly Products Business 🌱

- Sell reusable bags, bamboo pens, recycled notebooks, and other eco-friendly products.
- Promote your products through Instagram and college events.
- Start with a few products and reinvest profits to grow the business.

Conclusion: These startup ideas help college students develop entrepreneurial skills, earn income, and solve real-world problems with a small investment.

DETAILED PROMPT

Act as a creative Startup mentor. Suggest 3 creative and innovative startup ideas for college going students who have low budget in an enthusiastic way.For each idea tell me what problem does the idea solves,who are the target users what is the innovation in that idea and one unique feature.give me in 20-30 lines

OUTPUT

🚀 3 Creative and Innovative Startup Ideas for College Students

Hey, future entrepreneurs! 🌟 You don't need a huge investment to build a successful startup. All you need is a creative idea, a real problem to solve, and the courage to start small!

1. 🎓 SkillSwap – Learn by Sharing

- **Idea:** A student-to-student platform where students exchange skills without spending much money.
- **Problem Solved:** Many students want to learn new skills but cannot afford expensive courses.
- **Target Users:** College students who want to learn coding, graphic design, communication, or other skills.
- **Innovation:** Instead of paying money, students exchange their knowledge and teach each other.
- **Unique Feature:** A *Skill Credit System* where teaching one hour earns credits that can be used to learn another skill.
- **Low-Budget Start:** Begin with a free WhatsApp group or Google Form.

2. 🍱 WasteLess – Smart Food Rescue

- **Idea:** A platform that connects college canteens with students to sell surplus food at discounted prices.
- **Problem Solved:** Unsold food gets wasted while students search for affordable meals.
- **Target Users:** College students, canteen owners, and nearby food vendors.
- **Innovation:** Uses real-time updates to notify students when fresh surplus food is available.
- **Unique Feature:** A *Flash Food Alert* that offers limited-time discounts on food before closing time.
- **Low-Budget Start:** Use WhatsApp and simple online forms to connect vendors and students.

3. ♻️ ReUse Campus – Student Exchange Marketplace

- **Idea:** A campus marketplace where students buy, sell, rent, or exchange used textbooks, lab coats, calculators, and other essentials.
- **Problem Solved:** Students spend too much money on new items that others no longer need.
- **Target Users:** College students, especially freshers and students with limited budgets.
- **Innovation:** Creates a trusted, college-focused circular economy that reduces waste and saves money.
- **Unique Feature:** A *Campus Swap Match* that automatically connects students who want to exchange items.
- **Low-Budget Start:** Launch using a free Instagram page or WhatsApp community.

🌟 A Mentor's Final Advice

Start with **one college, one problem, and a few users**. Test your idea before investing money, collect feedback, and improve step by step. Your first goal is not to build a huge company—it is to help real people!

Remember: Great startups don't begin with big budgets; they begin with big ideas and small actions. 💡

FEW-SHOT PROMPT

Act as a professional and creative Startup Mentor and a Innovation Strategist. suggest 3 creative and innovative start up ideas for college going students that they can start in low budget. Analyse the examples provided below

Example 1:

Idea: CampusSwap

Problem: Students need affordable second-hand textbooks.

Solution: A platform for students to buy and sell used textbooks.

Example 2:

Idea: SkillCircle

Problem: Students struggle to find peers to practise new skills with.

Solution: A platform that connects students for peer learning.

Now generate the ideas and for each idea provide

1.A catchy name

2.The problem it solves

3.The proposed solution

Keep each idea concise and avoid repitition

🚀 3 Innovative Startup Ideas for College Students

As a startup mentor, I recommend choosing ideas that solve everyday student problems, require minimal investment, and can be tested within a single college.

1. MealMate – Affordable Campus Meals 🍱

- **Problem:** College students often struggle to find affordable, healthy meals between classes.
- **Proposed Solution:** A simple platform that connects students with nearby home cooks and small food vendors offering budget-friendly meal options.

2. NoteNest – Smart Study Resource Sharing 📚

- **Problem:** Students waste time searching for reliable notes, summaries, and exam preparation materials.
- **Proposed Solution:** A student-powered digital library where classmates upload, organize, and share study resources by subject and semester.

3. FixIt Campus – Student Repair Network 🔧

- **Problem:** Students may struggle to find affordable, trustworthy help for minor laptop, phone, bicycle, and dorm-item repairs.
- **Proposed Solution:** A campus-based service connecting students with skilled peers and verified local repair providers at reasonable prices.

💡 Startup Mentor's Tip

All three ideas can begin with free tools such as WhatsApp, Google Forms, or Instagram. Start small, test the idea with real students, and invest more only after confirming demand.
